

Security @ND: Password security

Your Notre Dame account unlocks a wide range of applications and systems that provide access to research data, intellectual property, and personal/confidential information.

One of the most important precautions you can take in protecting you and your information is setting a strong password to your account. Weak passwords are easily compromised leaving you vulnerable to hackers and fraudulent use of your personal information.

Keeping your password secure is the first line of defence in preventing unwanted access to your account.

Password Requirements

Your new password must adhere to the following security requirements,

- Must be at least 7 characters in length.
- Must contain a capital letter, lowercase letters and a number e.g. (1, 2, 3, 4, and 5).
- Cannot contain your first name, last name or student number.
- Can contain symbols/characters if you wish to strengthen your password. e.g.
 (!@#\$%^&* +)

All passwords expire after 365 days and cannot be changed more than once in 24 hours. You also cannot use the last 24 previously set passwords on your account.

It is best practice not to change the number or symbol to the next increment when your password expires. It is better to select a passphrase instead to keep your account secure.

Passphrase or Password?

Why should I use a Passphrase? Is it not the same as a Password?

A password is easier to crack as it is created using a common word, number, and symbol not generally more than 10 characters long. A passphrase is harder to crack as it is longer than 14 characters and contains different practices such as full stops, spaces, and sayings that are not grammatically correct.

Creating your Passphrase

Passphrases can be created using the following information.

- Over 14 and up to 127 characters

- Adding spaces between words
- Using random words and phrase

Туре	Idea	Phrase	Passphrase
Location	You can use a town, city, country or	Niagara Falls	N1ag4r4F@lls!
	state. A place that holds meaning to	Yellowstone National	Y3II0wSt0ne.N@t.P@Rk
	you is easier to remember.	Park	
Ideas/Goals	Set a goal and use a passphrase to	New York City 2020	N3wY0rkC!ty2020
	achieve it.	Be a world traveler	B3@w0rldTr2vel3r
Movies	Use your favorite film, TV series, book	Terminator 2	T3rm!n@t0rTWO
	or author to set a passphrase you will	Lord of the Rings	Ush@IIN0tP@\$\$!
	easily remember.		
Sayings/Quotes	Turn something you say out loud into	Keep Smiling	K33pSm1ling!
	a passphrase. Even if someone knows	Each to his own	E@ch.2.his.OWn
	the saying, they won't know the		
	spelling.		

Account Lockout

When you unsuccessfully login to your account 5 times your access to the system is locked out for 60 minutes. After 60 minutes access is restored and login is available again for all devices.

A locked account may present with one or more of the following issues on and off campus.

- Error message at login "Referenced account is locked."
- Unable to access UNDA-WiFi and UNDA-AD wireless networks on university or BYO devices
- Emails not received on computer or BYOD
- Unable to log onto university applications and portals (Blackboard, Allocate, PeopleSoft)

If you are unsure of the cause of the account lockout, it is best practice to reset your password. If you are experiencing multiple accounts, please Contact IT Service Desk.

Please kindly contact your campus Service Desk if you require assistance.
